- HTML
- CSS
- JavaScript
- React
- Sales
- Marketing
- Optimization
- Product Development

LEADERSHIP

May 2021 - June 2022

FAU TECH RUNWAY

I was selected as a finalist for Florida Atlantic University's mentorship program, where I actively participated in a year-long collaboration with other small businesses under SaVi H2O, LLC. Throughout the program, I engaged in mutual learning and teaching, focusing on business model development, research, and analysis. Staying abreast of industry trends, I also played a key role in guiding and conducting interviews with both specific clients and the general public.

January 2019 - August 2021

RED BULL NORTH AMERICA TEAM CAPTAIN

As team captain, I dedicated extra time to support the regional manager, taking on a leadership role for several months while they transitioned to a new position. During this period, I ensured the team's stability and productivity by managing training, scheduling, employee requests, and work hours. I maintained open communication with other markets to keep our team aligned and on track. Additionally, I played a vital role in helping the new manager settle into their position, ensuring a smooth transition and a cohesive team environment. My commitment to the team's success and my ability to adapt during changes were essential in achieving our goals.

PROJECTS

[GITHUB](#)

UNILIFE, **REACT**

I crafted an intuitive interface to facilitate users in choosing from a range of home options tailored to their city and preferences. Additionally, I developed essential components, including filtering capabilities, and seamlessly integrated them with an API database. My focus on regular updates and thorough debugging ensured the interface's smooth and efficient functioning.

CINETRAIL, **REACT**

I wrote code that enabled list rendering and facilitated data and form inputs. Additionally, I implemented React Router to support both browser and hash-based routing within the application.
